

LAGOS STATE TRANSPORT COMPANY

Online Ticket Reservation System

User Guide

This guide shows you, step by step, how to use the system.

There are two kinds of user, and this guide covers both:

- **Passengers** — search for a trip, reserve a seat, pay, and get a QR ticket. *Part A.*
- **Boarding gate staff** — check a passenger's ticket and admit them. *Part B.*

Version 1.0

Before you start

1. You need a phone, tablet or computer with a web browser.
2. You need an internet connection.
3. Open the system's web address. On a computer running it locally this is `http://localhost:3000`

The whole journey in one picture

The one thing to remember: when you choose a seat it is held for you for **10 minutes only**. If you do not finish paying within 10 minutes the seat is released for someone else.

Part A — For passengers

1 Create your account

1. Click **Create account** at the top right of the page.
2. Fill in your full name, email address, phone number and a password.
3. Your password must be at least 6 characters.
4. Click **Create account**. You are signed in straight away.

LS Lagos OTRS

Already registered? [Sign in](#)

Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.

2 Sign in (if you already have an account)

1. Click **Sign in** at the top right.
2. Enter the email address and password you registered with.
3. Click **Sign in**.

If you see "*Incorrect email or password*", check your spelling. The system does not say which of the two is wrong, for security.

The screenshot shows a web interface for 'Lagos OTRS'. At the top left is the logo 'LS Lagos OTRS'. At the top right are links for 'Find a trip', 'Sign in', and a green 'Create account' button. The main content area has a heading 'Welcome back' followed by the text 'Sign in to reserve seats and view your tickets.' Below this is a sign-in form with two input fields: 'Email address' and 'Password'. A green 'Sign in' button is at the bottom of the form. Below the form is a link: 'New here? [Create an account](#)'. The footer contains the text: 'Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.'

3 Search for a trip

1. On the home page, type where you are travelling **From** and **To**.
2. Choose your **travel date**.
3. Choose the **mode** — Bus, Ferry, Rail, or leave it as All modes.
4. Click **Search trips**.

You can leave From and To empty to see every trip on that date.

Search trips

How it works

1

Search

Pick your terminal, date and mode of transport to see every scheduled departure.

2

Reserve

Choose your exact seat from a live seat map. It is held for you for 10 minutes.

3

Pay

Complete payment through the gateway with your card, transfer or USSD.

4

Board

Your QR ticket is issued instantly. Show it at the gate and walk straight on.

Working at a boarding gate?

Scan a passenger's QR code, or enter the booking reference by hand.

Open ticket validation

4 Choose a departure

Each row is one departure. It shows you:

- The operator and vehicle (for example BRT · Bus · BRT-014)
- Where it goes, the departure time and the arrival time
- The fare for one seat
- How many seats are still free

Click **Select seats** on the trip you want. If it says **Fully booked**, that vehicle has no seats left — choose another time.

Reserve and pay ₦1,600

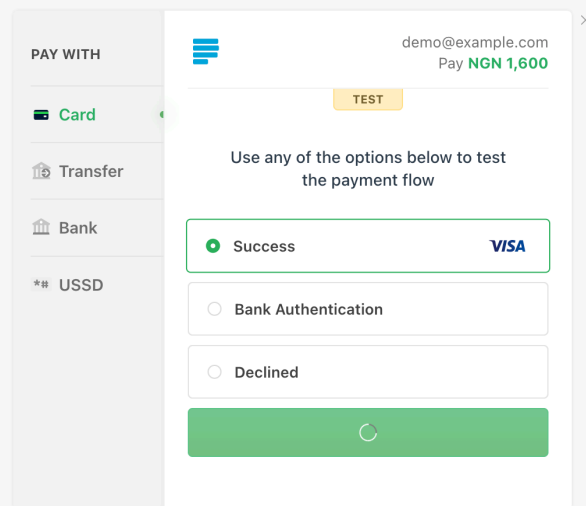

Seats are held for 10 minutes while you pay.

Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.

6 Pay for your seat

1. The system sends you to **Paystack** to pay.
2. Choose how you want to pay: **Card**, **Transfer**, **Bank** or **USSD**.
3. Follow the instructions on the Paystack screen and complete the payment.
4. You are brought back automatically. Wait while it says "*Confirming your payment*" — do not close the page.

Testing the system? While the system is in test mode, Paystack shows a yellow **TEST** label and gives you buttons instead of asking for a real card. Choose **Success** to test a normal payment, or **Declined** to see what a failed payment looks like. Then press the pay button. No real money moves.

Secured by **paystack**

7 Get your ticket

As soon as the payment is confirmed, your ticket appears. It shows your name, the route, the date, your seat numbers, a **QR code** and a **booking reference** such as `LSTC-BUCT9F` .

You do not need to print it. You can always open it again from **My tickets**.

9 Board the vehicle

1. At the terminal, open your ticket on your phone.
2. Show the QR code to the officer at the boarding gate.
3. They scan it and let you on. That is the end of the journey for you.

If your phone is off or has no network, give the officer your booking reference instead — they can look it up by hand.

Part B — For boarding gate staff

10 Open ticket validation

- 1. On the home page, click **Open ticket validation**, or go straight to `/verify`.
- 2. Keep this page open at the gate for the whole boarding period.

Ticket validation

Point a phone camera at the passenger's QR code to open their ticket, or type the booking reference below.

Booking reference

LSTC-7F3K9A

Look up ticket

Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.

11 Check a passenger's ticket

There are two ways to bring up a ticket. Either works.

Scanning (normal)	By hand (backup)
Point your phone camera at the passenger's QR code. The ticket page opens by itself. No special scanner app is needed.	Type the passenger's booking reference, for example <code>LSTC-BUCT9F</code> , then press Look up ticket .

12 Admit the passenger

1. Check the details on screen against the passenger: name, route, date and seats.
2. If everything matches, press **Admit passenger**.
3. The screen turns green and says **Passenger boarded**. Let them on.

Admit passenger

Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.

13 What the screen is telling you

What you see	What it means	What to do
Passenger boarded	The ticket was valid and has now been used.	Let the passenger on.
This ticket has already been used	Somebody already boarded with this ticket.	Do not admit. One ticket boards once only.
Not valid for boarding (status: pending)	The booking was never paid for.	Send the passenger to complete payment.
Unknown ticket	No booking exists with that reference.	Check the spelling, or ask them to open their ticket.
This ticket could not be authenticated	The QR code is not a genuine one from this system.	Do not admit. Refer to a supervisor.

Passenger boarded

Checked in Fri, 21 Aug 2026 at 08:56

Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.

Part C — Rules and problems

The rules, in short

Seats per booking	5 at most
How long a seat is held	10 minutes, then it is released
How many times a ticket can be used	Once
Who confirms a payment	The payment gateway — never the browser
Getting your ticket back	Any time, from My tickets
Past trips	Hidden from search automatically

If something goes wrong

Message	Why	What to do
One or more of the selected seats have just been taken	Another passenger paid for that seat a moment before you.	The seat map refreshes — choose a different seat.
Your seat hold expired	More than 10 minutes passed before payment finished.	Go back to the trip and select your seats again.
Payment not confirmed	The payment did not complete.	Your seats are held a few minutes more. Open My tickets and press Complete payment.
You need to sign in to continue	You are signed out.	Sign in, then select your seats again.
No trips match that search	Nothing is scheduled for that date and route.	Try another date, or clear From and To to see everything.

Starting the system for a demonstration

1. Open a terminal in the project folder.
2. Run `npm run seed` once, to load the demo trips.
3. Run `npm run dev`.
4. Open `http://localhost:3000` in your browser.

A ready-made passenger account is created by the seed:

Email	<code>demo@example.com</code>
Password	<code>password123</code>

Running `npm run seed` again clears all bookings and reloads fresh trips — useful right before a demonstration.
