

Online Ticket Reservation System

User Guide

This guide shows you, step by step, how to use the system.

There are three kinds of user, and this guide covers all of them:

- **Passengers** — search for a trip, reserve a seat, pay, and get a QR ticket. *Part A.*
- **Boarding gate staff** — check a passenger's ticket and admit them. *Part B.*
- **The platform owner** — oversee the whole platform: takings, schedules and every booking. *Part C.*

THE SYSTEM LIVES HERE

<https://lagos-otrs.vercel.app>

To do this	Go to	Sign in with
Book a ticket PASSENGER	/	demo@example.com password123
Check tickets at the gate GATE STAFF	/verify	No sign-in needed
Oversee the platform OWNER	/admin	admin@example.com admin12345

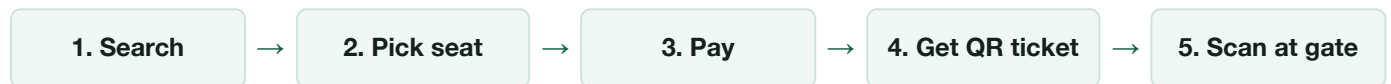

Or create your own passenger account — see step 1.

Before you start

1. You need a phone, tablet or computer with a web browser.
2. You need an internet connection.
3. Open `https://lagos-otrs.vercel.app` in your browser.

Everything in this guide works the same way if you are running the system on your own computer — the address is then `http://localhost:3000` and every page below sits under it, for example `http://localhost:3000/admin`.

The whole journey in one picture

The one thing to remember: when you choose a seat it is held for you for **10 minutes only**. If you do not finish paying within 10 minutes the seat is released for someone else.

Part A — For passengers

1 Create your account

1. Click **Create account** at the top right of the page.
2. Fill in your full name, email address, phone number and a password.
3. Your password must be at least 6 characters.
4. Click **Create account**. You are signed in straight away.

LS Lagos OTRS

Find a tripSign inCreate account

Create your account

You only need an account once — every ticket you buy stays here.

Already registered? [Sign in](#)

Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.

2 Sign in (if you already have an account)

1. Click **Sign in** at the top right.
2. Enter the email address and password you registered with.
3. Click **Sign in**.

If you see "*Incorrect email or password*", check your spelling. The system does not say which of the two is wrong, for security.

The screenshot shows a web interface for 'Lagos OTRS'. The top navigation bar includes the 'LS Lagos OTRS' logo on the left, and 'Find a trip', 'Sign in', and a green 'Create account' button on the right. The main content area has a light gray background. Centered in this area is a white box containing the sign-in form. The form is titled 'Welcome back' in bold, followed by the subtitle 'Sign in to reserve seats and view your tickets.' Below this, there are two input fields: 'Email address' and 'Password'. A green 'Sign in' button is positioned below the password field. At the bottom of the white box, there is a link that says 'New here? [Create an account](#)'. The footer of the page, in a white bar, reads 'Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.'

3 Search for a trip

1. On the home page, type where you are travelling **From** and **To**.
2. Choose your **travel date**.
3. Choose the **mode** — Bus, Ferry, Rail, or leave it as All modes.
4. Click **Search trips**.

You can leave From and To empty to see every trip on that date.

LS Lagos OTRS

Mode

All modes

Search trips

How it works

1

Search

Pick your terminal, date and mode of transport to see every scheduled departure.

2

Reserve

Choose your exact seat from a live seat map. It is held for you for 10 minutes.

3

Pay

Complete payment through the gateway with your card, transfer or USSD.

4

Board

Your QR ticket is issued instantly. Show it at the gate and walk straight on.

Working at a boarding gate?

Scan a passenger's QR code, or enter the booking reference by hand.

Open ticket validation

4 Choose a departure

Each row is one departure. It shows you:

- The operator and vehicle (for example BRT · Bus · BRT-014)
- Where it goes, the departure time and the arrival time
- The fare for one seat
- How many seats are still free

Click **Select seats** on the trip you want. If it says **Fully booked**, that vehicle has no seats left — choose another time.

Passenger name

Demo Passenger

Phone number

08030000000

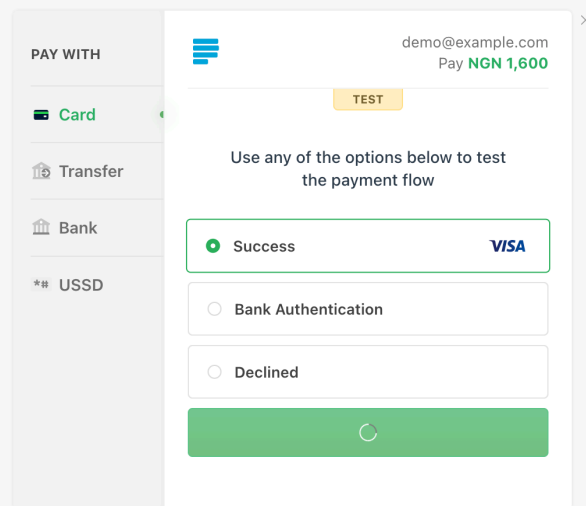

Reserve and pay ~~¥~~1,600

Seats are held for 10 minutes while you pay.

6 Pay for your seat

1. The system sends you to **Paystack** to pay.
2. Choose how you want to pay: **Card**, **Transfer**, **Bank** or **USSD**.
3. Follow the instructions on the Paystack screen and complete the payment.
4. You are brought back automatically. Wait while it says "*Confirming your payment*" — do not close the page.

Testing the system? While the system is in test mode, Paystack shows a yellow **TEST** label and gives you buttons instead of asking for a real card. Choose **Success** to test a normal payment, or **Declined** to see what a failed payment looks like. Then press the pay button. No real money moves.

Secured by **paystack**

7 Get your ticket

As soon as the payment is confirmed, your ticket appears. It shows your name, the route, the date, your seat numbers, a **QR code** and a **booking reference** such as `LSTC-BUCT9F` .

You do not need to print it. You can always open it again from **My tickets**.

9 Board the vehicle

1. At the terminal, open your ticket on your phone.
2. Show the QR code to the officer at the boarding gate.
3. They scan it and let you on. That is the end of the journey for you.

If your phone is off or has no network, give the officer your booking reference instead — they can look it up by hand.

Part B — For boarding gate staff

10 Open ticket validation

1. On the home page, click **Open ticket validation**, or go straight to `https://lagos-otrs.vercel.app/verify`.
2. Keep this page open at the gate for the whole boarding period.

LSLagos OTRS

Find a tripMy ticketsDemoSign out

Ticket validation

Point a phone camera at the passenger's QR code to open their ticket, or type the booking reference below.

Booking reference

LSTC-7F3K9A

Look up ticket

Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.

11 Check a passenger's ticket

There are two ways to bring up a ticket. Either works.

Scanning (normal)	By hand (backup)
Point your phone camera at the passenger's QR code. The ticket page opens by itself. No special scanner app is needed.	Type the passenger's booking reference, for example <code>LSTC-BUCT9F</code> , then press Look up ticket .

12 Admit the passenger

1. Check the details on screen against the passenger: name, route, date and seats.
2. If everything matches, press **Admit passenger**.
3. The screen turns green and says **Passenger boarded**. Let them on.

Passenger boarded

Checked in Fri, 21 Aug 2026 at 08:56

Lagos State Transport Company — Online Ticket Reservation System. Academic prototype.

Part C — For the platform owner

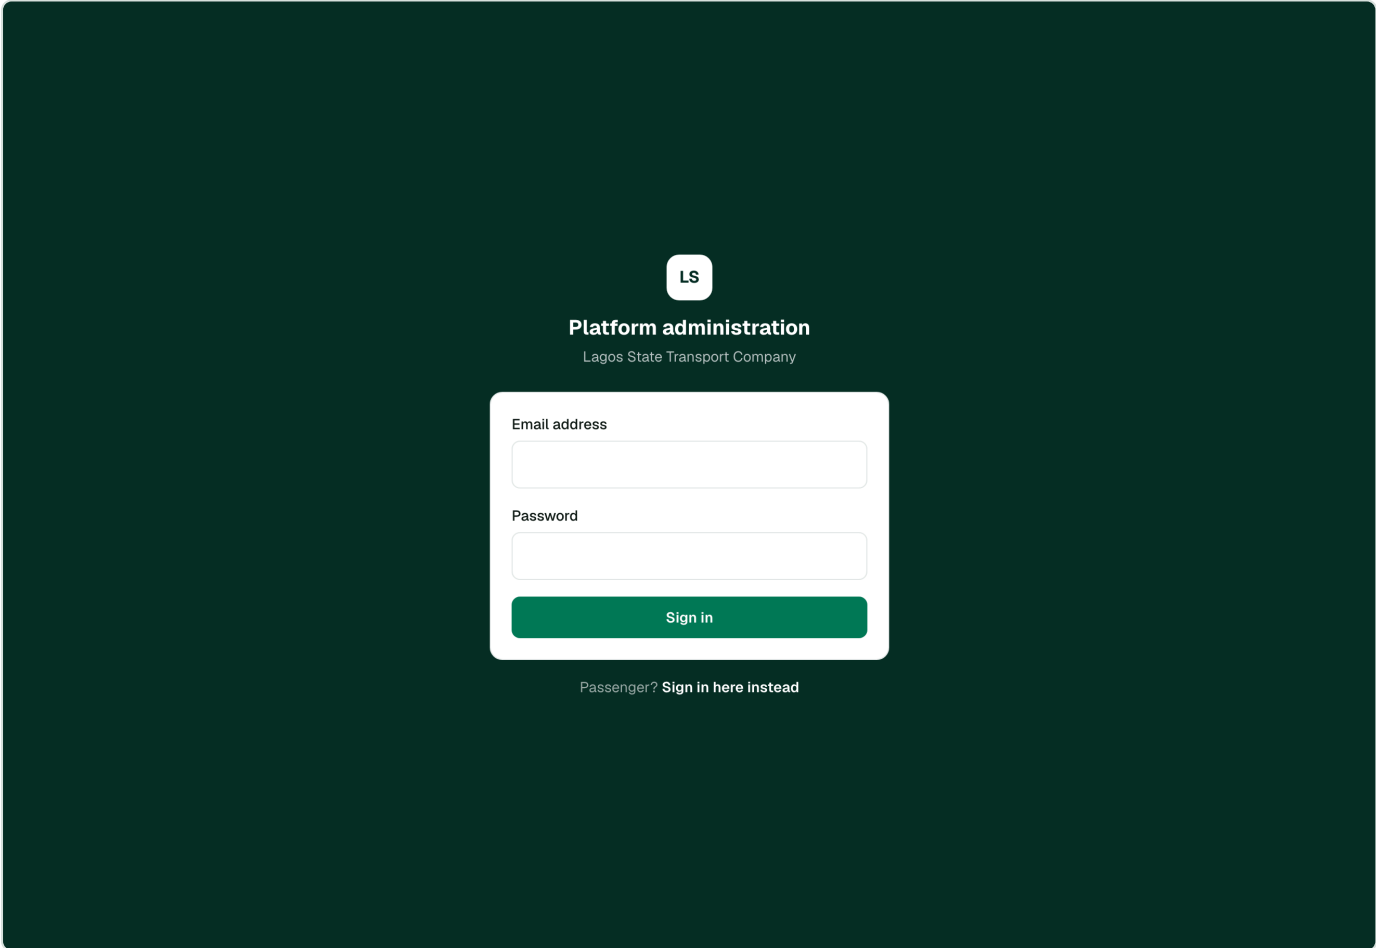

The administration area is separate from the passenger site. It is where the person who runs the platform sees the money coming in, publishes the timetable, and keeps an eye on every booking. Passengers and gate staff cannot reach it.

Web address	https://lagos-otrs.vercel.app/admin
Email	admin@example.com
Password	admin12345
Who can open it	Only an account marked as administrator
What a passenger sees	They are turned away at the sign-in screen

14 Sign in as the administrator

1. Go to `https://lagos-otrs.vercel.app/admin` . You are sent to the sign-in screen.
2. Enter the administrator email address and password.
3. Click **Sign in**.

Signing in with an ordinary passenger account here does not work — it says *"That account is not an administrator"* and signs you back out.

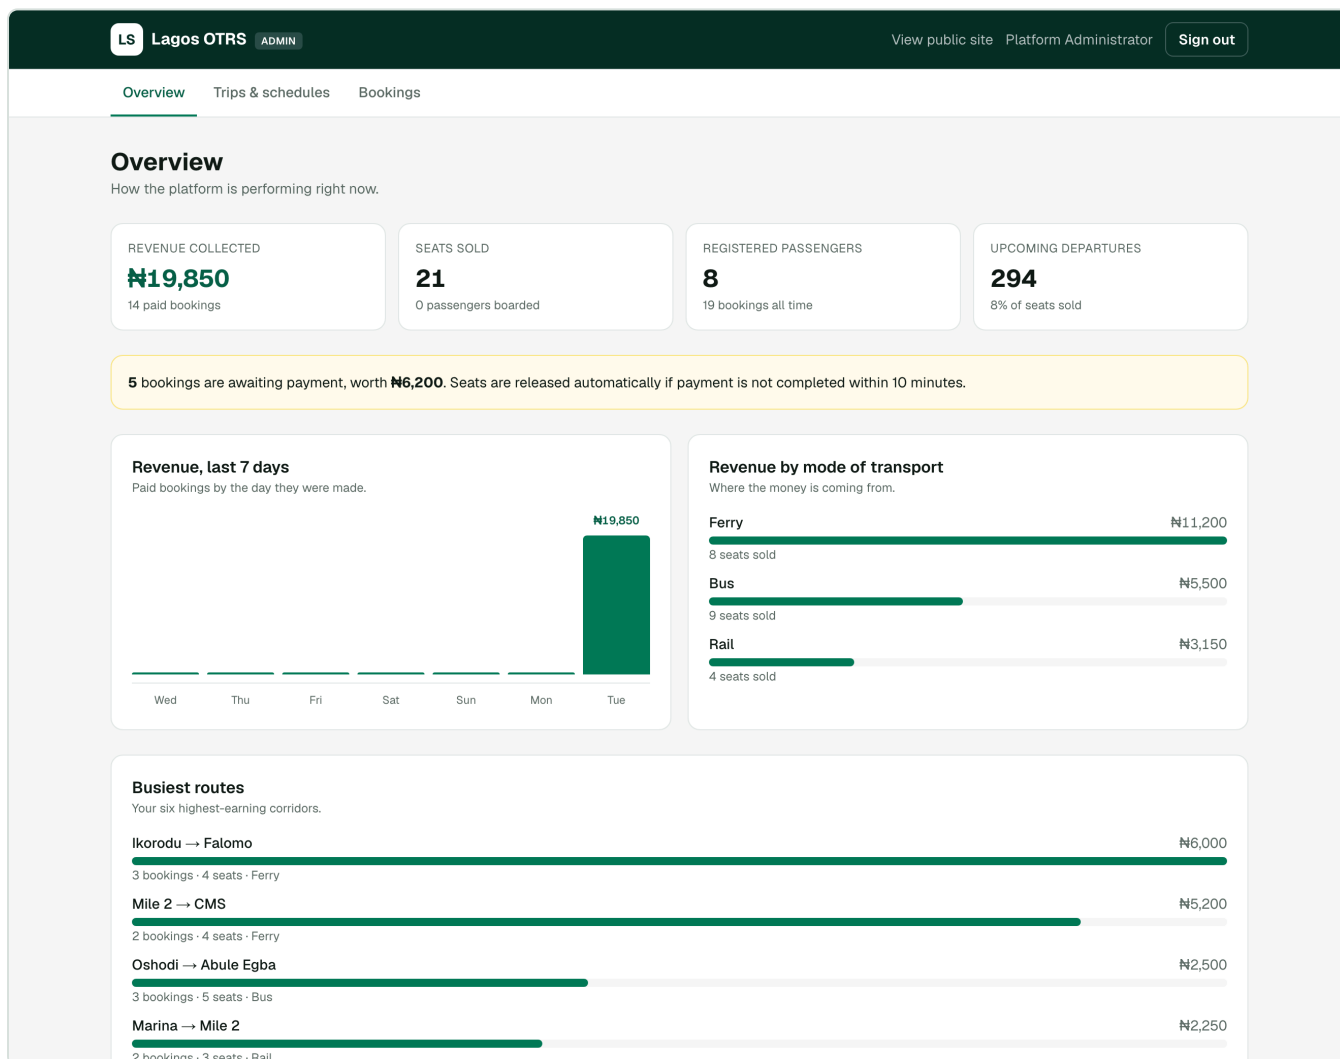

15 Read the overview

The first screen answers "how is the platform doing?" at a glance.

Panel	What it tells you
Revenue collected	Money actually received, and how many bookings produced it.
Seats sold	Total seats paid for, and how many of those passengers have boarded.
Registered passengers	How many people have accounts, and total bookings ever made.
Upcoming departures	Trips still to run, and what share of their seats is sold.
Revenue, last 7 days	Daily takings, so you can see a trend.
Revenue by mode	Whether bus, ferry or rail is earning most.
Busiest routes	Your six highest-earning corridors — where to add vehicles.

A yellow band appears when bookings are sitting unpaid. Those seats free themselves after 10 minutes, so it needs no action — it is there so the number is never a mystery.

16 Watch the bookings coming in

The bottom of the overview lists the eight most recent bookings as they happen. **See all** opens the full list.

2 bookings · 3 seats · Rail

Berger → CMS

1 booking · 2 seats · Bus

Agbado → Oyingbo

1 booking · 1 seats · Rail

Latest bookings

The last eight, newest first.

Platform administration — Lagos State Transport Company.

17 Publish a new trip

1. Open **Trips & schedules**, then click **Add a trip**.
2. Fill in the operator, mode and route code — for example BRT, Bus, BRT-01.
3. Enter where it runs from and to, and the departure and arrival times.
4. Enter the vehicle label, the fare, and the seat layout in rows and seats per row.
5. Click **Create trip**.

The form works out the capacity and what a full vehicle would earn as you type. The trip goes on sale to passengers the moment you save it.

Create trip

Cancel

Platform administration — Lagos State Transport Company.

18 Change or withdraw a trip

1. Open **Trips & schedules**. Use the tabs to switch between upcoming and past departures, or search by route, operator or vehicle.
2. Each row shows the fare and how many seats are sold, as `sold/total`.
3. **Edit** changes the time, fare, route or vehicle. **Delete** withdraws it.

The system protects passengers who already hold tickets. It refuses to delete a trip that has paid bookings, and it refuses to shrink a vehicle below a seat that has already been sold. Cancel those bookings first if the service really is not running.

19 Look into a single booking

1. Open **Bookings** to see every reservation on the platform.
2. Filter by **Paid**, **Awaiting payment**, **Boarded** or **Cancelled**. The number beside each filter is how many there are.
3. Search by booking reference, passenger name, email or phone number — this is how you answer "a passenger is on the phone about their ticket".
4. **Cancel** releases that passenger's seats back on sale.

A passenger who has already boarded cannot be cancelled — their journey has happened.

Part D — Rules and problems

The rules, in short

Seats per booking	5 at most
How long a seat is held	10 minutes, then it is released
How many times a ticket can be used	Once
Who confirms a payment	The payment gateway — never the browser
Getting your ticket back	Any time, from My tickets
Past trips	Hidden from search automatically

If something goes wrong

Message	Why	What to do
One or more of the selected seats have just been taken	Another passenger paid for that seat a moment before you.	The seat map refreshes — choose a different seat.
Your seat hold expired	More than 10 minutes passed before payment finished.	Go back to the trip and select your seats again.
Payment not confirmed	The payment did not complete.	Your seats are held a few minutes more. Open My tickets and press Complete payment.
You need to sign in to continue	You are signed out.	Sign in, then select your seats again.
No trips match that search	Nothing is scheduled for that date and route.	Try another date, or clear From and To to see everything.

All the addresses and logins, in one place

Page	Address	Sign in with
Passenger site	<code>https://lagos-otrs.vercel.app</code>	<code>demo@example.com</code> / <code>password123</code>
My tickets	<code>https://lagos-otrs.vercel.app/tickets</code>	Same passenger account
Boarding gate	<code>https://lagos-otrs.vercel.app/verify</code>	No sign-in needed
Administration	<code>https://lagos-otrs.vercel.app/admin</code>	<code>admin@example.com</code> / <code>admin12345</code>

Running it on your own computer instead

1. Open a terminal in the project folder.
2. Run `npm run seed` once, to load the demo trips.
3. Run `npm run dev`.
4. Open `http://localhost:3000` in your browser.

The seed creates two ready-made accounts:

Role	Email	Password
Passenger	<code>demo@example.com</code>	<code>password123</code>
Platform owner	<code>admin@example.com</code>	<code>admin12345</code>

Change the administrator password before putting this anywhere public — set `ADMIN_PASSWORD` in `.env.local` before running the seed.

Running `npm run seed` again clears all bookings and reloads fresh trips — useful right before a demonstration.
